## ARTESIAN WATER!

### Well-Borers for the Santa Fe Pacific Find an Abundant Flow at Adamana.

The crew sinking the well for the Santa Fe Pacific at Adamana find a good supply of water at a depth of only 300 feet. This point is about 18 miles east of here, and the supposition is that water can be found all along the Rio Puerco and Little Colorado, at even a less depth than 300 feet. This well throws a stream 18 feet above the surface and it is expected will fill the tank without the use of power.

There is no better land in the territory than the land in the vicinity of Holbrook, when water is available, and as that question is practically settled, it will be only a matter of a year or two when Holbrook will be a rival of the best towns in the territory.

Prof. Theo. F. Van Wagenen says, "There are unusually good prospects for oil and gas along the Little Colorado near Holbrook." In boring for water we have a hundred chances to strike oil and gas, and as the work will be pushed at once, Holbrook will have a genuine boom in a few weeks.

A committee of business men are out inspecting the well today, and a local company will be formed at once for the purpose of boring for water. Keep one eye on Holbrook!

## LOCAL NEWS.

Wm. Scorse is in town.

J. E. Porter was in town this week.

Abe Amos was down from Pinetop this week.

The Co-op received a car-load of wagons and buggies yesterday.

Henry Huning left for home Thursday, after a visit to Winslow.

Levi Savage has accepted a position with the bridge gang on the Santa Fe Pacific.

J. R. Hulet intends to equip the Apache mail route with new rigs in the near future.

W. R. Brink, who is writing a historical work on Arizona, is gathering material in Navajo county this week.

Five antelope were seen to come down to the river just across from town yesterday morning for a drink.

Mrs. Tenney, mother of Mrs. Robt. Smith, returned from Utah this morning, where she has been visiting for some time.

Several loads of people passed through here this week from St. Joseph enroute to snowflake to attend conference.

Mrs. M. A. Davenport, of Phoenix, arrived today and will spend several weeks with her daughter, Mrs. Wm. Morgan, at Show Low.

Since the artesian water scare we are unable to find any Holbrook real estate for sale, and we are really afraid the "freight" may be raised on the necessities of life.

Chas. Cooley is down this week. He came in to meet Dan Southwell, who is expected in this morning from the west. Mr. Southwell was formerly U. S. operator at Cooley's.

Levi Savage and John Dievelbess returned Tuesday from their trip up on the Colorado.

Myron H. McCord has been appointed U. S. Marshal for the territory of Arizona. No better man could have been found in the territory, or any place else, for the position.

Dr. Rudd, of Springerville, went up to Flagstaff Monday to attend the commencement exercises of the Normal school. His children, who are attending the school will accompany him home next week.

Mr. B. B. Harris and son, Chauncey, of Sturgis, South Dakota, arrived here yesterday morning, on a visit to his daughter, Mrs. J. F. Woods. Mr. Harris expects to spend the summer here and in California.

As we go to press we learn of the death of Frank Freeman, aged about sixteen years, at Snowflake yesterday. He was thrown from a horse and received injuries which caused his death. Further particulars could not be learned.

H. J. Ramer came in from the range this week and says he will have about 2,000 head of cattle or about 60 cars, which will be shipped to his new Mexico ranch at Wattrons. We believe this includes all the cattle Mr. Ramer has in Arizona at present.

Train No. 8 and freight train No. 33 met in head-end collision Thursday morning near Challenger, and two firemen were killed and several others injured. Ed. Monahan, one of the firemen killed, was a son of Section Foreman Monahan at this place. The Citizen says: "An attempt will be made by the Odd Fellows to have the charge of murder brought against the engineers and conductor of the freight train at the coroner's inquest this afternoon."

Hon. and Mrs. Wm. Morgan are down from Show Low, to meet Mrs. Morgan's mother. They took in the sights of Winslow yesterday.

Henry Baird, who has been connected with the Wabash Cattle Co., for some time, expects to leave for Altus, Okla., next weeks.

Crazy men are becoming quite numerous. One ended his life by the razor route last Friday at Winslow in the chair car on No. 8, and while this was going on a demented soldier returning from the Philippines jumped from the car and made for the woods. The soldier was afterwards captured and taken on to Albuquerque.

Col. Graves, inspector of Indian affairs, came down from Keams Canyon Tuesday, accompanied by Superintendent C. E. Burton. The gentlemen informed the ARGUS that an expenditure of some \$80,000 would be made at the Canyon in the near future, in the way of new buildings, etc. We are glad to learn of such substantial improvements.

Harry Carty returned Tuesday night from Prescott where he has been for the past ten months. Harry did very well in Prescott and among other things acquired a mining claim, which is very likely to bring him in a fortune in a few years. He expects to go to work for the American Drilling Co. Monday, joining the crew which is now located at Adamana.

Mrs. Flowers and niece, Miss Mattie Woods, left for Los Angeles Tuesday morning. The young friends of Miss Mattie gave her a surprise party Monday night and a very pleasant evening was spent. Mrs. M. J. Woods expects to leave in a few weeks, and intends to make her future home in Los Angeles. While we regret to see these people depart from Holbrook, we hope their new home will be agreeable to them.

Frank A. Zuck will open the meat market at the old stand on Saturday morning the 15th, and will keep a full stock of Fresh Meats, Fruits and Vegetables in their season. He solicits the patronage of the citizens of the town and surrounding country. We have been in need of a good shop for some time, and as Mr. Zuck promises to run it in first-class shape, the people should appreciate his enterprise by giving him a liberal patronage. Patronize home industry; butchers in other towns don't spend their money in Holbrook.

A. F. McAllister has just completed the school census, and finds within the school age 40 males and 30 females. There will, however, be but 35 or 40 of these who will attend school, and it is the opinion of many that this number can be successfully handled by one good teacher. The school board will have a meeting in a few days and then the question will be decided.

J. Wattron.

## Read It in His Newspaper.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for the lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by, F. J. Wattron.

## A WORTHY SUCCESSOR.

"Something New Under The Sun."

All Doctors have tried to cure catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "Snuffles the guaranteed cure" and is sold at the extremely low price of one dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect catarrh cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve hay fever or cold in the head.

Catarrh when neglected often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discover of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

Sent prepaid to any address in the United States or Canada on receipt of one dollar. Address Dept. E 626, Edwin B. Giles & Company, 2330 and 2332 Market Street, Philadelphia.
